Gen. Sheridan on the New Orleans Riot—Cholera Reports.

NEW YORK Aug. 22.

A special despatch from New Orleans 21st says:

The investigations of the Military Commission into the causes of the riot are nearly closed. The report will be submitted to Gen Sheridan about the close of the month. After endorsing the report, he will remit to the War Department. It is believed the report will be of a radical political character.

WASHINGTON, Aug. 17.

The New Orleans Massacre—Important Statement.

The following dispatch has just been received at this Bureau:

NEW ORLEANS, Aug. 17.

A member of the Legislature informed some of his friends yesterday, that he was recently informed that President Johnson regretted that all the members of the Convention had not been dispersed by the riot. The fact will be sworn to if necessary. King, the publisher of the New Orleans Times, writes to his friends here that he was present when the President received Gen. Sheridan's dispatches, and that the President threw the General's dispatches under the table. As soon as the Military Commission reports, several important arrests will be made. A great many murderers of Union men have been identified by competent men, and they will soon be in the hands of justice.

It looked oddly enough, I assure you, to see on the stage the venerable Dr. Leonard Woods, who has just resigned the Presidency of Bowdoin College. He remarked today somewhat facetiously that he had never before attended a political convention, but had been present at the meetings of the General Assembly of the Presbyterian Church, and comparing the Assembly with the present Convention, he regarded the latter as more of a religious body than the former.—*Philadelphia Cor. N. Y. World.*

Such an opinion is not so surprising, if, as stated by the Press, Dr. Woods is in reality a Roman Catholic in sentiment. Not half so surprising as the fact that such a man should so long continue President of a Protestant College.

POSTMASTER OF BOSTON. It is rumored that George Lunt, Esq., formerly of the Courier, is likely to receive the appointment of Postmaster.

Trouble in the Wigwam!—The Overseer Cracks His Whip!!

To the Editor of the Daily Whig.

"A constant reader of the Times" has been amused at the specimens of ground and lofty tumbling exhibited by the editor of that paper in his futile attempts to ride two horses going in different directions—trying to "serve God and Mammon." Though every man but the editor aforesaid could see that no person could sustain "my policy," and at the same time advocate the election of General Chamberlain, still our editor has displayed a degree of energy and consumed an amount of paper and ink worthy of a better cause, in trying to define his position to his own, if not his readers' satisfaction. But "the driver has cracked his whip," and now our editor is looking around to see how he can get down the name of Chamberlain and substitute that of Pillsbury without any one but the "my policy men" knowing it.—Alas, poor Yorick! In consideration of his support of "my policy," he had been promised an office in this locality, which was created as a reward to some poor soldier. But because, forsooth, he gave his support to a gallant soldier for the highest office in the gift of the State, and an opposer of "my policy," he has been cast aside, and the hero of Camp John Pope put in the place. As if this was not enough, Andy's driver in this ilk, Marcellus Emery of the Bangor Democrat, touches him on the raw, and cracks the policy whip about his devoted ears in true plantation style. Hear him:

We regret to find in The Evening Times of last Saturday an article of which the following is an extract:

"To be sure if Pillsbury were to act consistently with his antecedents, he would repudiate the Philadelphia doctrines, while Gen. Chamberlain might consistently endorse them if he chose to do so.—This is all the difference. But in no event can the Philadelphia platform be brought into our present gubernatorial contest. This should be distinctly understood."

After going on to show that Mr. Pillsbury is, while Gen. Chamberlain is *not* a supporter of "my policy," he says:

Surely, our neighbor of the Times cannot look an honest man in the face and say, that Gen. Chamberlain is not, heart and soul, in favor of the Radical policy of Congress, and, heart and soul, opposed to the policy of the President.

Should Gen. Chamberlain utter or write a single syllable in support of the principles of the Philadelphia platform, his name would instantaneously be dropped from the head of every Radical paper in the State. Is not that so, Mr. Editor of the Whig & Courier? Is not that so, Mr. Editor of the Portland Press? Our neighbor of the Times knows that it is so.

Then throwing out a gentle hint of what the Times editor is after, by referring to the visit and demands of the New Hampshire delegates on President Johnson, he continues and winds up as follows:

Mr. Johnson replied that we now have a policy and principles recognized and laid down by the most intelligent, able and patriotic body of men that has been convened since the days of the Declaration of Independence. A recognition of this policy and principles would be required of those who receive office and patronage from the Government.

It was a duty the administration owed itself, that strength and power should be given to those who maintain the principles declared by that great body of national men who met this week in Convention at Philadelphia.

There can be no mistaking this emphatic declaration of Andrew Johnson. Eben F. Pillsbury is "one of those who maintain the principles" of the Philadelphia Convention. Gen. Chamberlain is one of those who oppose those principles.

The inference is inevitable. No man who votes for General Chamberlain can receive any appointment to office at the hands of Andrew Johnson or any of his Secretaries.

Here is a stunner! "No man who votes for General Chamberlain can receive an office at the hands of Andrew Johnson or *any of his Secretaries!*" This is the most unkindest cut of all! If not one who votes for General Chamberlain, how can a man who holds his name at the head of his paper look for anything? Certainly he cannot.—And that's what's the matter. Do you ask what will be the result of all this? *The name will come down*, and Gen. Chamberlain will get no more pretended support, than he has already had real support from the Times.

PEQUOT.

A party of Cincinnati visitors at Newport who had made an abundance of money at the recent Saratoga race, went bathing the other day, and while their clothes were in the dressing-rooms on the beach they were plundered of $100,000 in money and $12,000 in other valuables. The checks and notes were returned by mail the next day from Boston, but the greenbacks and diamond rings remain to be discovered.

PRESIDENTIAL APPOINTMENTS. A Washington telegram to the World, says:

It is doubtful whether any general changes of officials will be made in any event until after the President's return from Chicago. This statement has been made to-day by well-informed parties.

A Frankfort letter, speaking of M. Charles de Rothschild, narrates the following: The celebrated capitalist waited on Gen. de Manteuffel and said, "We shall not pay. Pillage our cellars if you like, but you will not find there your twenty-five millions of florins. And, if you do so, I give you my word that I will pause till the signatures that I hold of the Prussian bankers to be protested, so that all your banks shall fail." The general had some idea of having M. de Rothschild arrested, but did not carry out that design.

What General Chamberlain Says.

All must unite in *demanding security for the future.* We must have guaranties good and sufficient against any future attempt to destroy this Government whether in the exercise of a pretended right by open war or BY MORE ARTFUL AND INSIDIOUS ASSAULTS against the principles on which this Nation was founded. These are points we cannot yield without danger and dishonor; and WHEN THE SOUTHERN STATES SHALL HAVE COMPLIED WITH THOSE CONDITIONS IN GOOD FAITH, they will be in a condition to ask association and fellowship with the loyal commonwealths of the country which they deserted with such violence and scorn. UNTIL THAT TIME, in my judgment, it is wise to hold them in strict probation.

"We cannot go back to gather up the fragments of the Union as it was; we must now recognize the nation as it is, and make the Constitution what it should be."

COUNTY COMMITTEE.

J. S. Chadwick, Bangor,
G. F. Dillingham, Oldtown,
J. W. Porter, Burlington,
Ozias Blanchard, Dexter,
H. W. Danforth, Lagrange,

and the report was accepted.

Hon. Isaiah Stetson, from the Committee on Resolutions, reported the following, which were unanimously adopted:

Resolved, That whilst we are desirous that the seceding States should be readmitted to their complete rights under the Constitution, which they forfeited by their rebellion—they should be reinstated only upon such conditions as will give them an equal and just representation in Congress, secure their fidelity to the Government and guarantee an enduring peace to the country.

Resolved, That the Union Senators and Representatives in Congress deserve and will receive the gratitude of the country for their persistant efforts to perpetuate the Union on the principles of right and justice, and that we recognize, and are determined to stand by and maintain the authority of the "CONGRESS OF THE UNITED STATES" as at present organized, at all hazards, and under all circumstances; and we do now, and will, at all times, assert against all executive encroachments, the validity and binding force of its legislation.

Resolved, That traitors to principle and traitors to their solemn obligations, no less than traitors to their country, deserve and will receive the just condemnation and utter detestation of every honest man.

Resolved, That this Convention views with the greatest alarm the determination of the President of the United States to enforce upon the country, by means of undue Executive influence and corrupting patronage, a policy opposed alike to its true interests and to the manifest wishes of the great, loyal and patriotic party which placed him in power.

Resolved, That the nominations of Gen. Joshua Lawrence Chamberlain as the Union candidate for Governor of Maine, and of Hon. John A. Peters as the Union candidate for Representative to Congress from this District receive our most hearty concurrence and we pledge them the undivided votes of the true Union men of Penobscot.

Resolved, That the nominees of this Convention are men of tried loyalty and ability, and should receive the hearty support of the Union voters of this County.

Hon. John A. Peters then eloquently addressed the Convention.

At the close of Mr. Peters' remarks Hon. Henry Wilson of Massachusetts was introduced and received with tumultuous applause. Three cheers were given for Mr. Wilson, and three more for Congress.

Mr. Wilson then addressed the Convention in an earnest and eloquent manner—taking ground strongly in support of the Congressional policy of Reconstruction.—His remarks were received with the utmost enthusiasm.

Three cheers were then given for the Chairman—upon which the Convention adjourned.

WM. P. HUBBARD, }

Great Meeting of the People at Norombega.

The meeting of the people last evening at Norombega Hall to hear Hon. Henry Wilson of Massachusetts upon the political topics of the day, was one of the largest and most enthusiastic ever held in this city. It was like those held during the war in response to the tocsin of war against rebellion—and like those most enthusiastic in its expressed feeling of opposition to submitting to the power of rebels. The hall was packed to its full capacity by earnest, honest, and determined friends of Republican freedom and foes of all coalitions with copperheads and rebels. Our limits and the late hour of adjournment prevent us from giving more than a general account of the meeting.

Hon. Lewis Barker of Stetson was called to the chair, in assuming which he made a stirring address of some twenty minutes duration, during which he was frequently interrupted by hearty applause. He referred effectively to the perilous position in which the country has been again placed by the treachery of Andrew Johnson to all his pledges against treason, his neglect to demand such terms of the rebel States as would have placed the restored Union on a *safe* basis, and with which they would have most willingly complied if the President had demanded it, and his present most disastrous policy of admitting them to full and increased power in the government without any safeguard whatever. Mr. Barker appealed earnestly and effectively to the patriotism of the people, to see to it that Congress is fully sustained at the polls, in its opposition to this most suicidal policy—and the meeting most heartily responded.

Mr. Wilson was then introduced to the meeting and spoke for an hour and a half, earnestly, impressively, and effectively, in defence of the policy and conditions of Congress relative to restoration, and solemn warning to the people of the inevitable dissension, disaster and civil war which would follow the support of the Johnson policy at the polls. He referred to the history of the war—the complete, overwhelming and humiliating overthrow of the rebellion—an overthrow which left the rebels prepared to submit peaceably to any terms we might have dictated—to the subsequent assassination of President Lincoln, the consequent accession of Mr. Johnson, and the most disastrous policy since pursued by him—a policy which has resulted to-day in restoring every one of the insurgent States again to rebel rule and to their renewed despotic tyranny over the Union men South, and will lead, if not repudiated by the people, to rebel rule in the whole United States and to another civil war.

Mr. Wilson proceeded most clearly to demonstrate the fairness, justness and clemency of the constitutional amendment now proposed by Congress, and show conclusively that by its adoption only can the admission of rebel States to representation be made safe, and the Union be fully reconstructed on a basis of equal representation and equal rights which will stand.

After Mr. Wilson had concluded, amid great applause, Hon. John A. Peters was called for, and closed the meeting with one of his happiest speeches, short, sharp, and telling upon the traitorous coalition which is now attempting to put the country under rebel rule. His remarks were received by the audience with reiterated applause, and the meeting adjourned with tremendous cheers for the Union, the speakers and the cause. During the evening the Bangor Brass Band discoursed patriotic and excellent music.

A "Johnson Club" was organized in this city on Tuesday evening, at a meeting called "per order,"—the advertisement being handed to us for publication by E. W. Flagg, Esq., a well known lawyer who has always acted with and helped engineer the "Democracy"—the meeting itself being attended almost wholly by men of that party. The chairman was John S. Ricker, Esq., and the Secretary Mr. Levi Murch, both thorough and ardent supporters of the Democratic party always. There were no original Republicans taking part in the meeting, or joining in its object, that we could see—while such extreme democrats as Gorham L. Boynton and others, who utterly opposed the "coercion" of rebels from the beginning, were present, and forwarding the objects of the meeting. The speeches consisted of highly colored and delusive accounts of the Philadelphia Bread-and-Butter Johnson Convention from delegates G. M. Weston and George W. Ladd—and predictions of the success of the new rebel-copperhead-conservative party, very similar to those predictions of the downfall of the Republicans that Ladd has been making regularly every year since his "Straight Whig" party went up and he joined the "Democracy."

The officers chosen for this "Johnson Club" are as given below. There is not an original Republican among them, we believe. If there is, his name was probably used without his knowledge or consent. We are perfectly confident that some men whose names are used there, gave no consent, and will have nothing to do with a coalition embracing rebels and copperheads, and that aims at admitting rebels into immediate, unconditional, and *controlling* power in our government. There are some who fought rebels too long and too gallantly to surrender to them at last in this manner, or to go hand-in-glove politically with the copperheads who kept up a fire on the rear of our army while it was fighting rebels in front. The President of the Club is well known as having been an original Democrat, but spasmodically a Republican at times, whenever he thought he could see an "avenue" which looked available for himself. His zeal at other times for the success of the Republican principles, was not remarkably active or practical. We recollect that in 1862 (we think it was) at an election deemed very important for the Republicans to carry by as large a majority as possible, this gentleman, then being in this city, and having his name on the list of voters, refused to give his personal exertions or influence in aid of the Republican ticket after being urged to do so, and even refused to go to the polls and vote. This we know. *He cannot be claimed as a Republican.* There may be few Republicans in the city who, for one reason or another, more or less creditable, (generally less) are willing to forget their principles and their cause, to aid a Johnson-copperhead movement—but where there is one such deserter there are ten of the Douglas Democrats who came to us after 1860, who still *remain* good and staunch Republicans. The party is far stronger than it was when its unaided vote elected Mr. Lincoln in 1860.

The following are the gentlemen reported by the committee and named as officers of the Johnson Club. We copy the names from the *Bangor Democrat*, which speaks in terms of the highest laudation of the club and its object. Some of the *officers* named below must feel highly flattered by the approbation which Marcellus Emery bestows. What do they think the rank and file of the Union army—the hard-tack boys who fought rebels and wanted to fight Copperheads, will say to the present affiliations of some of their officers?

President—George M. Weston.

Vice Presidents—Ward 1—Capt. James Dean, Edward Connors, H. M. Moor.

Ward 2—Isaac Strickland, Geo. Palmer, Capt. Fred. Cummings.

Ward 3—Col. Thos. H. Garnsey, Captain Chas. B. Sanford, Chas. C. Prescott.

Ward 4—Spencer A. Pratt, Daniel Sanborn, James Morrow.

Ward 5—Philo. A. Strickland, D. M. Howard, Frank Hinckley.

Ward 6—Gen. Daniel White, Gen. C. K. Miller, Levi Murch.

Ward 7—Gen. Chas. W. Roberts, James O'Dohohue, N. G. Higgins.

Secretaries—A. M. Robinson, Jr., Capt. Percival Knowles.

Corresponding Secretary—John S. Ricker.

Treasurer—Gen. C. K. Miller.

Executive Committee—Gen. Charles W. Roberts, Gen. Dan'l White, Col. Thos. H. Garnsey.

GEN. WHITE ASKS TO BE EXCUSED.

Since writing the above we have been authorized to say that Gen. Daniel White, whose name is reported above as one of the Vice Presidents, declines to serve in that capacity, and has addressed a note to the President or Secretary of the meeting to that effect.

Senator Wilson gave some excellent advice on one point, in addressing the County Convention yesterday. He said: "Don't be too quick in proclaiming that this man or that man, who happen to hold offices, have 'sold out,' or have made themselves right with the political traitor, Johnson." Let us be charitable, and wait patiently. Senator W. also said that nineteen-twentieths of those who are in office in Massachusetts are faithful, and will not falter in their duty, come what will.

We can say the same of those in Maine.

Mr. G. M. Weston, in his remarks to the Johnsonites on Tuesday evening, thought it was an "offensive personality" to term the new party the "Bread-and-Butter Brigade," and made what our neighbor of the Times evidently thought a great point by referring to the "Hamlins," "Fessendens," and "Wingates," who hold office. The *difference* between those gentlemen and the men who are now fawning upon President Johnson, is that they stand by their principles at the risk of *losing* office, while the Bread-and-Butter Brigade *desert* their principles for the sake of retaining or obtaining office. We don't see the point of Mr. Weston's remark.

The Republican County nominations, made yesterday for this county, (as reported in another column,) will recommend themselves to the approbation of the people. The new nominees are Gen. S. F. Hersey, of this city, and Josiah L. Crosby, Esq., of Dexter, as Senators, both able and faithful Republicans. Our Bangor people are especially pleased by the nomination of their popular and generous-hearted fellow-citizen, who has ever had the best interests of his country at heart, and who has ever been ready to stand up for the principles and the party of freedom through the darkest as well as the lightest days of the Republic, and who is no more willing to have rebels rule the country now than he was during the war. Such are the men whom the public delight to honor.

Speaking of the present political excitement at the west, the New York Commercial Advertiser says:

Political excitement is just now running very high in the western States, especially in Illinois. The New Orleans riot, and its attendant circumstances, appear to have aroused the people and carried them at times beyond the bounds of moderation in their expressions of indignation at the arbitrary assumption of power by the administration, and the wanton barbarity of the New Orleans populace. Certainly no more disastrous circumstance for the President could have occurred, and he will yet discover that he has made a most fatal mistake in not heeding the counsels of wisdom and assuring the country that he will not look coolly on and see the members of the Louisiana Convention consigned to punishment for simply exercising the *right of free speech.* His political antagonists in the west are using this fact against him with great effect. Mr. Johnson has but to peruse Gen. Logan's speech at Chicago, last evening, to learn of the revolution now going on, which threatens to leave him soon without a corporal's guard of northern supporters outside of the ranks of office-holders. Gen. Logan has hitherto been a warm personal friend and admirer of the President. When last year Gen. Grant and our other heroes received an ovation at Cooper Institute, Logan spoke in the highest terms of Mr. Johnson. Subsequently the latter tendered him the important position of U. S. Minister to Mexico. A few months have now passed away, and we find Gen. Logan indulging in the most bitter invectives against the Executive.

KNOWLES

Vegetable Hair Restorer!

AS A HAIR PREPARATION this stands without a rival—has proved itself by the thousands who have tested its virtues for the past three years,

THE ONLY RELIABLE RESTORER

Of Gray, Faded, or Diseased Hair, to its original color, condition and former beauty.

It is not a *Dye*, being a Vegetable Compound, and not injurious in its application; but is warranted to restore Gray, Faded, or Diseased Hair to its original color in 20 days.

By its invigorating properties, promotes a luxuriant growth on Bald Heads, in all cases where such a result is possible; prevents the hair from falling off, eradicates dandruff, humors, and all other impurities from the scalp; and as a Restorer and Dressing combined, it has no equal.

The great and increasing sales of this preparation attest the high value in which it is held, and the fact that its reputation has been established solely upon its own merit and worth—the trial of a single bottle will convince the most sceptical of its virtues.

Ritchie's Liquid Compass!

THE Ritchie Compass which has been the standard Compass in the navy for upwards of four years, and also in extensive use in the merchant service, should be used on every class of vessels where a compass is to be depended on. It combines all the qualities of a perfect instrument. To extreme sensitiveness and perfect steadiness is added a strength and durability which prevents them from getting out of order like other compasses. The reason for this is apparent to anyone upon examination. A single trial of this compass has always resulted in its adoption and the rejection of every other kind.

A LIE NAILED. The Biddeford Journal says: "The Democratic candidate for Governor, Mr. Pillsbury, in his speech at Saco, August 8th, said that the Hon. T. J. Southard, Judge Walton and Dickerson, and others named, were supporters of Johnson's policy. Mr. Southard, over his own signature, denies the soft soft is very soft) impeachment, and we are authorized in saying that the statement is a libel upon Judge Walton, since he is not a believer in nor a supporter of Johnson or his policy, and we have reason to believe that Judge Dickerson has been misrepresented." The Copper-johnsons find themselves so few in number, and so unimportant, that they have to resort to the use of names of reliable Union men, in order to give their Bread-and-Butter a more inviting appearance But when the offices are filled, they will look to the seats of the "rank and file," and see "a beggarly account of empty boxes"—Lewiston Journal.

LOCAL AND STATE ITEMS.

A FLEET. The number of arrivals at this port yesterday were fifty-five,—clearances eleven.

—We notice from the "Army and Navy Gazette" of Aug. 4, that Lyman S Strickland, late Captain of the 16th U S. Infantry, has been appointed Major, for gallant and meritorious services during the Atlanta campaign, and in the battle of Jonesboro', Georgia, to date from Sept 1, 1864.

THE ATLANTIC MONTHLY for September contains a most trenchant article upon "The Johnson Party," which we commend to general perusal, and from which we intend to make liberal extracts for the benefit of our readers. Among the other interesting and valuable articles we notice one upon "University Reform," another upon "Life Assurance" Hawthorne's Note Book is again liberally drawn upon,—"The Chimney Corner" is continued, with its well sustained practical philosophy, and there are various other attractive literary matters, including able critical Reviews of New Publications and Literary Notices

GODEY'S LADY'S BOOK for September is well stored with new and attractive fashions for the ladies, embracing the most superb colored plates, and the richest patterns of embroidery &c, and a great variety of useful and tastful designs and directions for light and pleasant occupations for fair and skillful fingers Among the stories and sketches which are interesting and well written, we observe an attractive one by a Bangor lady, continued in the present number.

HARPER'S MONTHLY for September is received from Bugbee & Co An excellent number of this always good magazine Among the illustrated articles in the third number of "Personal Recollections of the War," being an account of the unfortunate and terrible affair at Ball's Bluff. "Army Life on the Border" is a thrilling account of warfare against the Indians on our great Western border thirty years ago—also illustrated with handsome engravings The balance of the number is well packed with the usual variety of matter.

—The members of the First and Second Baptist Societies who wish to attend the Fair of the Baptist Church in Oldtown, will leave the depot at 5½ o'clock this evening.

—We are indebted to the Penobscot Rive-Express for Boston evening papers.

—We call the attention of Shipmasters and others interested, to the advertisement of C. H Farley, of Portland. Mr F was burnt out in the July fire, but is now located at 150 Fore street

PORTLAND AND KENNEBEC R. R The statement that the steamboat train on this road has been discontinued is an error. The Farmer says that as the train is increasing in business and popularity the company are determined to keep it on the road, at least for the present It leaves Skowhegan, daily, at 2 o clock p. m, connecting at Bath with steamers for Boston, and returning, leaves Bath for Skowhegan on the arrival of boats from Boston

—We had another smart rain from the southward on Tuesday night and Wednesday evening Rain every day has been the general rule for the past two weeks.

—Two of a party of pleasure seekers at Mt. Desert, named E N Freeman and Henry Kennison, on Monday of last week captured an eagle, measuring seven feet from tip to tip, on one of the roads of the mountain The eagle became entangled in a tree, and they shook him off and tied him with a pair of suspenders to a stake in the road — They left him to get some rope and on returning saw their prize walk off and then fly away.

—The Portland Transcript says the number of members of the Maine Historical Society is limited to one hundred. There are now about eighty members The Society has published six volumes of valuable historical collections, and has materials in readiness for the issue of a seventh volume.

—The Argus says that a woman who has made a business of applying for "distress" to the charitable committees of Portland since the fire, was recently discovered to have stowed away in her trunk, a lot of excellent clothing and also the trifling sum of $136 in gold, evidence of $200 in the Savings Bank, greenbacks, &c., amounting in cash funds to the comfortable figure of about $350!

—The Press says that there are now three hundred comfortable tenement houses built in Portland for those burned out at the late fire, which those resident under tents will occupy. The system of issuing rations will have to be kept up more or less all winter, but the number to whom these are given is being gradually reduced. They now number about 700. To meet the necessities from the beginning of the trouble until spring $200,000 will be required, besides the gifts of food and clothing. Probably $200,000 will be needed to aid in rebuilding

PORTLAND POSTMASTER. It is stated that Judge Davis, Postmaster of Portland, either has tendered his resignation or is about to do so, in which case a new man must be elected We have heard Mr. Adams, editor of The Argus, named for the place. He would make a capital Postmaster, and if any Democrat is to have the appointment it should be given to him.—[Times.

The reply of the Superintendent of one of the principal Maine railroads, to a circular from a Cabinet officer at Washington, asking him to carry delegates to the Philadelphia Convention for half fare, was "that he was not aware that there were any such fools in Maine as to attend that convention; but if there were any, he would take them as freight!"—[Belfast Journal.

—The Light-Board give notice that after the 15 of August the fog signal at West Quoddy Head near Eastport, Maine, will be changed so that during foggy weather a Daboll trumpet will give blasts of five seconds duration, with intervals of twenty seconds between the blasts. Another of those signals has been ordered to be put up at Boon Island.

GENERAL ITEMS.

There are actually more deaths by cholera in New York than there are *cases* reported The reason is that when a case occurs among the *genteel* population, the doctor is bribed to call it something else—cholera being considered too common and vulgar a disease to be admitted among the "first families"

—The Hartford Times appropriately calls the vote cast, by the Kentucky rebels "a rousing Democratic majority." So does the Bangor Democrat. The latter paper brings out its big rooster to crow over this rebel victory, and at the same time goes its best in support of President Johnson's convention and policy

—A special inspector of the Freedmen's Bureau, who had travelled *incog* in North Alabama and Georgia, says there has not been a single case of starvation in either State, and that the amount of destitution has been largely exaggerated The issue of rations is demoralizing the people The crops, though small, are amply sufficient, with economy to supply the people with the necessaries of life until another crop is harvested

—There are now 976 schools for freedmen in the Southern States, conducted by 1405 teachers, and containing 90,778 pupils The schools are located as follows: Virginia 123, North Carolina 119, South Carolina 75, Georgia 79, Florida 38, Alabama 8, Mississippi 53, Louisiana 73, Texas 90, Arkansas 30, Kansas 15, Missouri 38, Kentucky 36, Tennessee 42, Maryland 86, District of Columbia 74

—An Ohio correspondent of the Cincinnati Gazette gives some interesting statements of the corn crop of this country, and by some tabular statistics, shows that the average increase of this crop is about five per cent per annum In 1840 the crop was 377,531,875 bushels; in 1850, 592,671,104, in 1860, 830,451,707, and the estimated crop for 1866, is 1,030,000,000.

—Mississippi physicians think the vast floods of rain which fell in that State last spring caused unhealthiness in the present crop of fruit and vegetables

—A warped pane of glass in a Baltimore shop window, acting as an convex lens, concentrated the sun's rays upon a pile of combustible material and set it on fire

—An Alabama negress gave birth to four children, lately, at one accouchement "Two were girls, the others boys. The woman was doing well." The New York World says she will probably never do any better How The World must mourn that the days of open slavery are for the present gone What a valuable producer she would have been before the war.

—The Doctorate of Literature is the name of a new academical degree created by the University of London, as more appropriate, when conferred upon a man of letters, than that of Doctor of Laws

—An exchange says a business that pays to run it into the ground, is the peat business.

THE NEXT STEP. The appeal of the Missouri delegation to have the President "put in the foreground" the military commander in their State, was not the only instance of looking to the future use of arbitrary power, which have of late appeared among the President's admirers The New York News, referring to the President's charges against Congress, makes the following significant remarks,

"If the Radical Congress have been guilty *of all these crimes* against the Republic, it is time that *they be disarmed and rendered impotent in the future.* If they have done what the President has said they have done, they should not be permitted an opportunity to repeat their crime. At the next session they should be *confronted by the Executive authority*, and be compelled to relinquish their *usurped powers.* It is not enough for the Executive to declaim against their treasonable and incendiary action; *he should interpose the power that he wields, including, if necessary, the military power*, to reduce them to subjection to the laws and the Constitution of the Republic."

BEG leave to call the attention of the public to the following testimonials, being a few of the many received from the sufferers by the late fire.—Sales made to order and second hand Safes taken in exchange.

UNSOLICITED!

PORTLAND, July 12, 1866.
Messrs TILTON & MCFARLAND,
110 Sudbury street, Boston
Dear Sirs—We take great pleasure in informing you that the BURGLAR PROOF SAFE we purchased of you, came out of the conflagration of 4th of July inst., with ITS CONTENTS ENTIRELY UNINJURED.
The safe was exposed to an intense heat caused by the burning of a large quantity of sugar, and we consider suffered as severe a test as could well be devised for it It contained a large quantity of valuable securities, which, as we have said, were entirely uninjured,
We shall wish you to make us another Safe on the same future occasion Yours truly,
J. B. BROWN & SONS

PORTLAND, July 12, 1866.
Messrs. TILTON & MCFARLAND,
110 Sudbury street, Boston.
Gentlemen—We are happy to inform you that the Safe we purchased of you a few months since, proved all your Agent recommended them to be Our office was in Messrs J. B Brown & Sons buildings, on Commercial street, which we had full of sugars, of which was consumed.
Both Safes fell into the cellar, remaining there some forty-four hours, subject to the intense heat generated by so large an amount of sugar and material of the building, which was very large. We opened the safe on Saturday the 7th inst, and found the contents in good condition some papers were injured in the drawer, also the bindings of the books, but every word and figure in them is perfect the Burglar Proof Safe we think can be repaired, but the large Fire Proof is too much injured, and we shall solicit you an order for a new one which we hope if tested will prove as valuable as those we have already tested
CHURCHILL, BROWNS & MANSON

PORTLAND, July 12, 1866.
Messrs TILTON & MCFARLAND, New York
Gentlemen—The Safe which I bought of your agent, some eight years since, was in the great fire of July 4 and 5 it was in a place hot enough to melt off one of the cast iron feet and rollers and fuse into the mass The contents were injured somewhat, the paper being very tender, but I was able to copy all papers relating to business, and have received from the banks new bills for those *scorched* I have sent my safe to be repaired, and have no doubt that in an ordinary fire the contents would come out uninjured
Yours truly, H. M PAYSON.

PORTLAND, July 12, 1866
Messrs TILTON & MCFARLAND
Gentlemen—Some ten years ago we purchased a safe of your manufacture, which, in company with many others, has been subjected to a severe test in our great fire. We attempted to set the Safe out, but failed to do so, and it fell into the cellar, remaining there until the fire was extinguished and brick moved off, that men could work On Monday, the 9th inst, we opened the safe, having seen a great many safes that failed, we were greatly surprised to find the inside of our safe in good condition, a fact which we can only attribute to order a new safe of your make. This certificate is written on paper which was in the safe during the fire
Yours truly, WM. H. WOOD & SON

PORTLAND, Me., July 17, 1866.
Messrs TILTON & MCFARLAND
Gentlemen—My Safe, of your manufacture, during the great fire was in the brick building opposite the post office, on Middle street. It was exposed to the full heat of the burning building, but when the walls fell, it was left but partially covered. It lay as it fell for a week after the fire, when I opened it and found the contents in good condition, a part of them not insured at all Yours respectfully,
JOSIAH H. DRUMMOND

PORTLAND, July 10, 1866.
Messrs. TILTON & MCFARLAND
Gentlemen—I had one of your Safes which stood in my office until it was consumed. It remained in the smouldering ruins from commencement of the fire, July 4, until Friday night, the 6th inst. On opening it I found every thing in good condition, and can cheerfully recommend it to the public, and shall most certainly order one from you when I again need a safe. Not one paper was injured my office of business was in the large brick block on Middle street, near your agents, Emery & Waterhouse
J. D. CHENEY.

PORTLAND, July 8, 1866
Messrs TILTON & MCFARLAND
Gentlemen—The safe I purchased of you proves itself to be what it purports to be—ready fire proof. It was subjected to the full force of the heat of our late terrible fire, and notwithstanding the legs, mouldings, plate and knobs were entirely melted, the inside was in perfect order, and preserved all my books and papers in a perfect condition As soon as I get a place to put a safe, I shall want another of your make. J. GRANT.

PORTLAND, July 17, 1866.
Messrs. TILTON & MCFARLAND
Gentlemen—I desire to testify to the superior qualities of your fire proof safes. I had one of your manufacture in use, corner of Exchange and Middle streets, at the time of the late disastrous fire, July 4th It remained in the store during the fire and fell into the cellar, where it remained nearly buried in heated bricks until the 14th inst, when it was opened and found in condition entirely satisfactory to me My bank book, a package of papers, a sales book, and a bank bill, sustained no injury, with the exception of the bindings of the books. I desire to have the safe repaired, when I shall feel sufficient confidence to give another trial.
F. R. HARRIS.

PORTLAND, July 14, 1866.
Messrs. TILTON & MCFARLAND
Gentlemen—This certifies that I have used one of your safes for the last number of years, and in the great fire of July 4th, had the misfortune to have it severely tested. I was situated in the second story of brick block corner of Cross and Middle streets, and it fell into the cellar with other combustibles, and lay burning until July 11th, at which time it was thought prudent to open it But on doing so, it was found so hot inside that blaze instantly showed itself, which being at once smothered, and kept so until the heat escaped from the inside, the contents were taken out in good order, so much so that the books, papers and money were all perfectly legible and admitted of being handled without danger of falling to pieces. Some of the books may have to be rebound. I have given your agent an order for another safe of same size, and my confidence is so great in your safe that I should recommend them as being the best fire proof of any make of safe in our great fire F. W. KALER & CO.

PORTLAND, July 23, 1866.
Messrs. TILTON & MCFARLAND, Boston
Gents—The Safe purchased of you came out to our satisfaction. It was in the hottest part of the fire, and fell on top two (2) tons coal where it remained—the coal being on fire—completely covered with bricks, so it was impossible to remove it until fifteen days after, and the coal burnt out. So great was the heat that even after this length of time, the safe was too hot to handle. It was the new pattern Safe, No 5. You will please send us another of the same size and thickness of filling, at your earliest convenience, and oblige
HARRIS & WATERHOUSE.

PORTLAND, Aug. 15, 1866.
Messrs. FAIRBANKS, BROWN & Co.
Gents—I purchased of your agent a No. 2 Tilton & McFarland Safe in June last. It was sent me and deposited in my store the 3d of July last, but as I had not got the keys, the safe had not been opened at the time of the fire of July 4.
It was subjected to *great heat* in the burning ruins for *several days* When opened the wood work inside was in PERFECT ORDER
The confidence of the business men here is decidedly in favor of your Safe, as being the best one in our fire, and people are buying them largely in preference to any other make. Yours truly,
(Signed) RICHARD COLLINS.

TILTON & MCFARLAND'S SAFES.—These Safes seem to be the only ones that came out of the recent fire unscathed, preserving their contents in an admirable manner. Such is our faith in them that we have ordered one of the large size for the office of the Press. We notice also that many others have ordered them.—*Portland Press*,

TILTON & MCFARLAND'S SAFES.—If anything can add to the regret occasioned by heavy losses by fire, it is the worthlessness of a safe to whose protection had been entrusted the most valuable property of the owner. There were hundreds of fire-proof safes, so-called, which, under the test of the late fire proved to be the shrewdest shams, much worse than nothing, for, relying upon their protecting powers, valuables were left in them which else would have been saved. Among the safes not of that class, but which proved to be honestly made and wonderfully fire proof against fire, were those manufactured by Messrs. Tilton & McFarland. Read the certificates given of their capacity to resist heat. As our safe failed us, though not subjected to anything like the heat which some of those withstood successfully, we have, after examination, ordered for our new office one of this kind, being satisfied that these safes are what they purport to be—fire proof, under all ordinary circumstances of exposure.—*Portland Argus.*

THE MUTUAL
Life Insurance Co.,
OF NEW YORK.
Assets over $16,000,000!
TO meet the choice of such present or future members as may prefer to have the amount insured paid in instalments to their widows or heirs, rather than in one sum, the Company is prepared to insert in its policies a clause agreeing that in lieu of the payment of the policy and profits in one sum, an equitable amount, to be determined by the Company, may be paid annually or semi-annually for any specified number of years, (say from five to twenty-five years,) if desired
EXAMPLE.—Suppose a policy of $10,000, with additions amounting to $5000 more, should become payable by reason of the death of the person insured, the Company, in lieu of the payment of $15,000 in one sum, would be able to give (assuming interest as realized in the past) an annuity for ten years of over $2000 per annum, or for twenty years an annuity of over $1300 per annum
This form of annuity will remove the anxiety which may exist in the minds of some policy-holders lest the future provision they have made for their families should be ineffectual or transitory in its duration, either through investments, unwise expenditure, or other uncertainties incidental to contingent trusts.
It is not only free from the ordinary dangers of investment, but its punctual and full payment is secured by the LARGE AND SOLID CASH RESOURCES and good faith of this institution, which thus, to a certain extent, becomes the GUARDIAN or TRUSTEE of the survivors Hence the provision may be considered, humanly speaking, beyond any adverse contingency.
☞ All such deferred payments or annuities will share equitably in the profits or dividends of the Company.
This Company also issues SURVIVORSHIP ANNUITIES, which provide for survivors during the whole period of life, and DEFERRED ANNUITIES, by which individuals may provide for themselves in advanced age

Mother's Work.

Toiling at noon like a busy bee,
Teaching the little ones A, B, C;
Hearing the older ones read and spell,
Smiling and praising when all goes well:
Washing and brushing, twixt work and play—
Such is the mother's work, day by day.

Sowing good seed by their path along,
Sowing by action, by word and song;
Never once pausing to count the cost,
Knowing that much that is sown is lost;
Bearing a prayer in her heart alway—
Such is a mother's life, day by day.

Robing each form for its nightly rest,
Hearing the faults of the day confessed;
Thus at her knee, as her flower-buds nod
Sealing and giving the day to God.
Now, may good angels her watch essay,
Angels have watched o'er her work all day.

From the Buffalo Express.

How a Hartford Family lost a Fortune of Thirty-five Millions.

For some weeks past the interest of the whole country has been excited by paragraphs in the papers, relating to a fortune of $35,000,000, in England, said to have fallen to a Mr. Halsey Church, of Stockbridge, Mass, and by him been turned over to his daughter and her husband, a mechanic named Eli Walker, residing in Hartford, Ct. We shall probably astonish our readers this morning by informing them that the claims of Mr. Halsey Church, and of his daughter Mrs. Eli Walker, have been completly overturned, and the real heir to this vast piece of property turns out to be an old resident of Erie county, who for thirty years has been living upon a modest farm, within sixteen miles of Buffalo. The Monte Christo thus suddenly elevated to rank among the Rothschilds, and the Astors, is Mr. John Church of Westphalls, in the township of Aurora.

A week ago last Saturday, as Mr. Church was reading the Christian Advocate, to which he piously subscribes, his eyes fell upon one of the paragraphs to which we have alluded, and his system, we suppose, must have been slowly electrified by the intelligence it bore to him. In the name of Mr. Halsey Church, he recognized that of a younger brother, for forty years neither seen or heard from. Forty years ago, it seems this John Church, now nearly eighty years of age, left his family relatives, in East Haddam, Mass., under some circumstances of disagreement, which prevented any after communication, and emigrated to the then "far West" of western New York. Never afterwards heard from by his youngest brother Halsey, the latter long ago resigned himself to the conviction, that death had left him alone, the solitary representative of the Church family.

Thus persuaded, he very naturally assumed to himself the vast English inheritance which turned up last fall, as awaiting the heirs of his deceased father, Thomas Church, and being too feeble to undertake the acquisition of the property, turned it over to his daughter and her husband, with power of attorney to proceed in his name. The latter employing ex-Governor Thomas Seymour of Connecticut, as their legal adviser, had satisfied themselves as to the existence of the estate, and the sureness of their title, and were just on the point of proceeding to England, assisted by a subscription of means from their friends and neighbors, when their hopes and their plans were rudely frustrated last week.

For thirty years, as we have said, Mr. John Church has been living at Westphalls, on a little farm of twenty-five or thirty acres, worth at the utmost, no more than $2000 or $3000, contented no doubt with his possesions, and never dreaming of wealth beyond the little to be gathered from his scanty acres. His first glimpse of the gorgeous vision which such figures as $35,000,000, summed up, was caught, as we have said, a week ago last Saturday. The Monday following, advised and prompted by some of his neighbors, Mr. Church came to the city, and that evening took passage upon the cars for Massachusetts. Four days ago, his family received letters from him, announcing the complete success of his mission. Mr. Halsey Church had recognized him as his elder brother, and the rightful heir to the $35,000,000; and the Walker family had abandoned their proposed visit to England, after a fruitless attempt, through Gov. Seymour, to obtain power of attorney from him. What his next step will be we cannot say. The age of Mr. Church will undoubtedly prevent his visiting England in person, but some of his family may be expected to make the journey soon. He has two sons and five daughters, all married except one of the latter.

The great fortune of Mr. Church consists in the main, we understand, of British Government securities, but includes two large estates on the Thames, not very distant from London.

It descends from a great grandfather of Mr. Church, and has been held for many years past by an elder brother of Thos. Church, his father, who came to this country some time in the last century. The late possessor, died without heirs, and his $35,000,000 have been waiting several months for the American descendants of Thomas Church to present themselves.

THE END OF A GAMBLER. Among the innumerable instances related of the ruin of persons at play, there is one which refers to a Mr. Porter, a gentleman who, in the reign of Queen Anne, possessed one of the best estates in Northumberland, the whole of which he lost at hazard in twelve months. According to the story told of this madman—for we can call him nothing else—when he had just completed the loss of his last acre, at a gaming house in London, and was proceeding down stairs to throw himself into his carriage, to be conveyed to his house in town, he resolved to have one more throw to try and retrieve his losses, and immediately returned to the room where the play was going on. Nerved for the worst that happen, he insisted that the person he had been playing with, should give him one chance of recovery, or fight with him.

His proposition was this: that his carriage and horses, the trinkets and loose money in his possession, his town house, his plate and furniture—in short, all he had left in the world, should be valued in a lump at a certain sum, and be thrown at a single cast. No persuasion could induce him to depart from his purpose. He threw and lost; then conducting the winner to the door, he told the coachman there was his master, and marched forth into the dark, dismal streets, without house or home or any creditable means of support. Thus beggared, he retired to an obscure dwelling in a cheap part of the town, subsisting chiefly on charity, sometimes acting as marker at a billiard table, and occasionally as helper in a livery stable.

In this miserable condition, with nakedness and famine staring him in the face, exposed to the taunts and insults of those whom he had once supported, he was recognized by an old friend, who gave him ten guineas, to purchase necessaries. He expended five in procuring decent apparel, and with the remaining five he repaired to a common gaming house, and increased them to fifty. He then adjourned to one of the higher order of houses, sat down with former associates, and won £20,000. Returning next day, he lost all, was once more penniless, and after subsisting many years in abject poverty, died a beggar in St. Giles.

SOUTHERN SPORT. A correspondent gives the following account of a singular method of trapping trout.—it is not fishing,—which has been invented in Florida:

"I assisted, as the French say, at quite a novel and amusing party, the like of which I never saw or read of before. The scene was a lake covering about two hundred acres varying in depth from fifteen to fifty feet, and filled with the most beautiful speckled trout. When the party reached the shore a burly freedman appeared with a huge bucket of gourds on his shoulder; to the neck of each was attached a short line, at the end of which was a hook baited with a minnow.—The freedman pushed off in a little canoe, and flung these gourds broadcast on the face of the lake and then the guests who were to participate in the sport were invited to embark, each in a canoe propelled by one paddle.

The day was just such a one as would have gladdened the heart of Isaac Walton, and the trout bit greedily. Soon the gourds were bobbing about in every direction, chased by the eager and excited fishermen in the canoes, amid the shouts of those who watched the fun from the shore. Down goes a gourd with a four-pound trout on the end of it, and away it flies through the water, with a couple of canoes in hot pursuit. The fishermen paddle with all their might, and when one or both come alongside, throw down their paddles and stretch out their hands to grasp their prize, away gourd in another direction, and away go the boats in continued pursuit. Soon other trout hook themselves to other gourds and become as puzzled where to go as are the fishermen with the chase. Now under the bows, now to leeward, now to starboard, the gourds and trout are dancing about as if on purpose to confuse their pursuers, who occasionally, if unexperienced in the management of the peculiar craft in which they are afloat miss their distance, and gourd, trout and fishermen are all in the water together, the canoe and paddle going it on their own hook.

The more knowing and more self-possessed land their fish with considerable dexterity, but the novices have only the excitement of the chase, without the fish.

CROSS PURPOSES.—A young lady sitting on her porch in La Crosse, Wis., recently with two lovers, named respectively Charles Mortland, and Robert W. Undine, playfully told them to walk by different routes of about the same length to North La Crosse and back, and she would marry the one who returned quickest. They started, but when Undine came back he found his rival with the lady and ascertained that he had not performed his part of the bargain. Mortland became angry, had a quarrel with the young lady and finally brought a suit against her for the following articles which he had given her during his courtship.

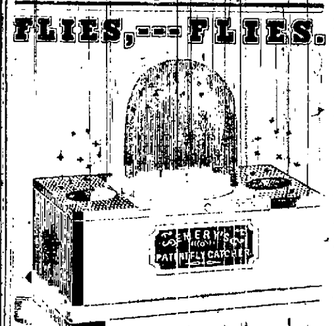
One gold ring	$5 00
One fancy fan	3 00
One pair white kids	3 00
One box confectionary	2 50
Total,	$13 50

On the trial Angus Cameron appeared for the prosecution, and "Brick" Pomeroy, by special request, for the defence, under whose instructions the young lady presented a bill as follows:

To kerosene oil seven months	$3 00
To rent of parlor for sparking	10 50
To confectionary eaten by plaintiff	25
Total,	$13 75

After an amusing trial a verdict was rendered against the plaintiff twenty-five cents and costs, amounting to $13 62½.

FLIES,---FLIES.



EMERY'S
Great American Fly Catcher.
Patented May 1, 1866, by Jas. Emery.
Manufactured and sold by
SEAVEY & CO.,
Nos. 83 and 85, Blackstone Street, Boston.

THIS is the greatest invention of the age for destroying that great pest, the House Fly, which is so annoying to every household and destructive to goods displayed in show windows, Hotel and Saloon Tables should be ornamented with them—thereby doing away with that unclean appearance too often observed.

There has been heretofore objections raised against the use of Fly Paper on account of its unclean appearance, together with the trouble it occasions by the dead flies dropping about into every thing. Now by this truly elegant invention, these great objections are entirely done away with. The flies are all collected within the Catcher, giving a neat and wholesome appearance to the premises where used.

In stores where goods are exhibited and exposed to the damaging influence of the fly, this invention cannot be over estimated.

THE SICK ROOM

Is rendered more comfortable, and the patient requires less attendance. The infant can take his nap in peace.

Mothers, no nursery should be without its Fly Catcher.

Watch Makers, Engravers, Artists, and all other persons engaged in delicate employment, will find them an indispensable article for their rooms—another great consideration is its cheapness and durability—for 50 or 75 cents, according to style, you have a Fly Destroyer that will last an age.

TRY ONE AND YOU WILL BE SATISFIED.

The Catchers have been recently improved by adding a perforated bottom and lower entrance. The Catchers are warranted to catch a host of flies, or no sale.

Arrangements will soon be made for their sale in all cities and towns in the country.

Orders sent to SEAVEY & CO., will be answered promptly.

Canvassers will find this the best selling article for the next four months, ever invented.

DIRECTIONS.

Fill one dish with molasses, place over it its perforated cover; in the other dish put a small piece of fly paper moistened with sweetened water.—Place these dishes within the trap. A common dishfull is to be used as a dome over the centre opening at the top. The flies after entering being separated from the bait will eat the poison, and are thereby destroyed. For sale by

IRRITATION OF THE NECK OF THE BLADDER.
INFLAMMATION OF THE KIDNEYS
CATARRH OF THE BLADDER.

STRANGURY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips. A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a betterr remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it.

DIURETICS

Irritate and drench the kidneys and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

STROUDSBURG, PA., Jan 20, 1866.

DR. GREGG:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I indulged in but little hope of a cure from any source. My disease was Dropsy, and my physicians told me that there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,
MRS. MARGILL C. LEVANWAY.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides and at times accompanied by sharp, lancinating or shooting pains through the parts, will, in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

DANVILLE, PA., June, 1862.—*Dr. William H. Gregg—Dear Sir*:—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured soon after regaining my usual good health.

Yours truly, J. V. L. DE WITT.

BOSTON CORNERS, N. Y., Dec. 27, 1861.—*Wm. H Gregg & Co.—Gents*:—I freely give you liberty to make use of the following certificate of the value of the Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder*. I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her for about nine months, and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "*her case was incurable. For*," *said he*, "*she has such a combination of complaints that medicine given for one operates against some other of her difficulties*." About this time she commenced to use the Constitution Water and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BEUSCHOTEN.

WEATHERSFIELD, Conn., March 2, 1863.—*Dr. W. H. Gregg—Dear Sir*:—Having seen your advertisement of "Constitution Water," recommended for Inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief, I was induced to try your medicine. I procured one bottle of your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used half of it, to my surprise, I found a great change in my health. I have used two bottles of it and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommended it to be. May the blessing of God ever attend you in your labors of love.
